## James A. Michener Art Museum Opens in New Hope

By J. Peter Grover

The **Michener Museum in New Hope** at Union Square had its grand opening in November 2003 and celebrated the dreams and efforts of the many people dedicated to the project. Funding, both public and private, made the 5,000 square foot facility possible.

Previously, Penn Valley Constructors had been awarded the construction contract for the interior fit-out of the new "Satellite" location.

The Main Gallery features in-laid hardwood floors and coffered drywall ceilings. A specialized climate control system incorporates a HEPA (High Efficiency Particulate Air) filtration unit and steam humidification.

The Bucks County Interactive gallery, with its blackout walls and ceilings, provided the perfect showcase for the in-laid carpet illuminated by special lighting.

The gift shop comes alive with its unique pendant lighting fixtures. Circular "jet cut" limestone and porcelain tile patterns provide an attractive yet durable floor surface that leads visitors through the shop and into the galleries.

Penn Valley Constructors appreciates George Michael of **George Michael and Associates** for his help and support throughout the course of the **Michener New Hope** project.

Earlier in 2003 Penn Valley Constructors was engaged to perform alterations to the interior of the art gallery at the **Michener Art Museum in Doylestown**. Special display lighting and controls were added along with enhancements to the fire alarm and sprinkler systems.

*"Both projects were completed by your firm with the highest degree of craftsmanship and with an attention to detail that is uncommon in today's world."*

Bruce Katsiff, Director/CEO James A. Michener Art Museum

## West Deptford New Jersey Real Estate Opportunity

By J. Peter Grover

A prominent 10 acre site located at interchange 20 along Interstate 295 is the perfect location for your new business.

High visibility makes this site ideal for hotel/motel use, dealership locations, distribution or professional buildings.

The property has preliminary subdivision and is zoned for light industrial or commercial use. Access to the site is from Crown Point Road.

Build to suit information is now available through Penn Valley Constructors. Please call Jon Otto or Peter Grover at the number below.

## New in the Field

By Jon Otto

The late winter and early spring of 2004 was a very active time at Penn Valley.

We were busy with the design stages of ten different projects and we have started construction for five very diverse customers.

We started building for some new customers as well as some of our

old friends. New customers include The **Bryn Athyn College** where we are constructing an addition to the Child's Hall dormitory, **Swets Information Services** in Runnemede, New Jersey to renovate their existing facility and **Reuter Hanney** in Warwick Township, Bucks County where we are adding warehouse space.

In addition to the new customers,

we are proud to have started our fourth project for Kevin and Dan Mealey at **Mealey's Furniture** in Fairless Hills and to be back at Paul Muller's **Lawrence Toyota** where we will be enlarging and remodeling the service department and adding a showroom.

## Largest Edward W. Redfield Painting Exhibit Ever Assembled

By Chris Weight

This unique exhibition brings together over 50 of Redfield's works, spanning his entire creative period.

Organized by the Michener Art Museum and sponsored, in part, by Penn Valley Constructors, this retrospective exhibition offers a unique opportunity to experience the depth and breadth of Redfield's life and work.

Be sure to visit the James A. Michener Museum, at the New Hope location, to see this once in a lifetime collection. A limited number of courtesy passes are available through Penn Valley Constructors.

Isn't it time to call us for your next project?
